## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on February 5, 2008 has been entered.

## **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Amanda Barry on March 31, 2008.

### **Please amend claim 71 as follows:**

71. (Currently Amended) An absorbent article having an upper surface, a lower surface and a periphery, the absorbent article comprising:

a topsheet having a bottom surface and a viewing surface positioned opposite to the bottom surface, the viewing surface facing upwardly towards the upper surface of the absorbent article;

a backsheet having a garment facing surface and a user facing surface positioned oppositely to the garment facing surface, the backsheet being joined to the topsheet;

an absorbent core having a top surface and a bottom surface positioned opposite to the top surface, the absorbent core being positioned between the topsheet and the backsheet; [[and]]

an insert positioned between the topsheet and the absorbent core, the insert having at least a first layer[[,]] ;

~~the absorbent article having a colored portion and~~

~~a non-colored portion, the colored portion and non-colored portion being viewable from the viewing surface of the topsheet, and being positioned on the first layer, having a colored portion, the colored portion being viewable from the viewing surface of the topsheet,~~ the colored portion having a first shade and a second shade, the first shade and the second shade being the same color, the color being a different color from the non-colored portion, the second shade being different from the first shade in lightness, darkness, and/or tone.

***Election/Restrictions***

This application contains claims directed to the following patentably distinct species

Species 1 – absorbent article with a topsheet having a colored portion

Species 2 – absorbent article with an absorbent core having a colored portion

Species 3 – absorbent article with an insert having a colored portion

Species 4 - absorbent article having a colored portion

The species are independent or distinct because claims to the different species recite the mutually exclusive characteristics of such species. In addition, these species are not obvious variants of each other based on the current record.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 53 and 62 are generic.

There is an examination and search burden for these patentably distinct species due to their mutually exclusive characteristics. The species require a different field of search (e.g., searching different classes/subclasses or electronic resources, or employing different search queries); and/or the prior art applicable to one species would not likely be applicable to another species; and/or the species are likely to raise different non-prior art issues under 35 U.S.C. 101 and/or 35 U.S.C. 112, first paragraph.

**Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species to be examined** even though the requirement may be traversed (37 CFR 1.143) **and (ii) identification of the claims encompassing**

**the elected species**, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

The election of the species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the election of species requirement, the election shall be treated as an election without traverse. Traversal must be presented at the time of election in order to be considered timely. Failure to timely traverse the requirement will result in the loss of right to petition under 37 CFR 1.144. If claims are added after the election, applicant must indicate which of these claims are readable on the elected species.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the species unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other species.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141.

During a telephone conversation with Amanda Barry on March 25, 2008 a provisional election was made without traverse to prosecute the invention of species 3,

claims 42 – 52 and 71 - 79. Affirmation of this election must be made by applicant in replying to this Office action. Claims 20 – 41 and 53 – 70 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

This application is in condition for allowance except for the presence of claims 20 – 41 and 53 – 70 directed to species non-elected without traverse. Accordingly, claims 20 – 41 and 53 – 70 have been cancelled.

***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: the overall combination of an absorbent article including an insert that is positioned between the topsheet and the absorbent core wherein the insert has a first layer that includes both a colored with the colored portion including first and second shades of the same color selected from specific colors where the shades differ in terms of lightness, darkness and/or tone has neither been anticipated nor rendered obvious by the prior art of record.

The closest prior art of record, as mentioned in previous rejections, provides first and second colors positioned on portions of the topsheet and/or backsheet, but none are directed to an insert specifically positioned between the topsheet and the absorbent core and having first and second shades of the same color only differing in terms of lightness, darkness and/or tone positioned thereon. Therefore, these limitations in combination with the remaining requirements of the absorbent article have neither been anticipated nor rendered obvious by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michele Kidwell whose telephone number is 571-272-4935. The examiner can normally be reached on Monday thru Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tatyana Zalukaeva can be reached on 571-272-1115. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
